Editor's Notes

During the next few months, *SHELLS and SEA LIFE* will concentrate on getting the issues out on time. We have tried everything from top quality, glossy color to newsprint and feel that a clean readable 8.5 x 11 inch format is what most of you are looking for -- on time! Current events, book reviews, travel information, new species references and personal notes seem to enjoy the most interest.

Your comments are always taken into consideration -- please tell us how we are doing. The comprehensive sea life directory in this issue should be very useful to you in the coming months. *SHELLS and SEA LIFE* will do shorter articles and notes in monthly issues. Most of the longer material will be published as *ACTA MOLLUSCA* issues, separate from S&SL.

We do not yet know whether the printing press will be running for this issue. We hope to get the funds together for our additional equipment within the next few weeks. If not, we will probably do a shorter May issue and get it to you on time rather than wait again.

We have decided not to complete the Crouch reprint of Lamarck's shells as a part of *SHELLS and SEA LIFE* issues. We will, however make a set of the remaining pages not yet printed for each of you who would like them. The cost will be \$5.00 postpaid. If anyone wants the full set softbound, the cost will be \$12.95 postpaid. Make your check payable to: *SHELLS and SEA LIFE*, 1701 Hyland St., Bayside, CA 95524, U.S.A.

Best regards,

Steven J. Long
